

## Antique Rock Show at the Gabriola Commons Fall Fair, September 22

The Gabriola Land and Trails Trust (GaLTT) will be holding an ANTIQUE ROCK SHOW at the Fall Fair at the Gabriola Commons from 10 am - 4 pm. All are welcome to drop by and bring with them any unusual, attractive, or even mundane, rock or beach stone they've picked up on Gabriola and would like to know more about. Two geologists (Steve Earle and Nick Doe) will be on hand to hopefully say what you have, how old it is, and how it came to be where you found it. We'll also have microscopes and some other geologists' tools at the table. We may have to hit your rock very hard with a hammer so it will be best to leave Grandma's diamond engagement ring at home. It should be fun tho' if you, like us, think rocks are cool. There's no guarantee we'll know what everything is, but we'll do our best.
